Essential guides on cattle farming. Reproductive evaluation and ultrasound diagnosis. Manuel Fernández Sánchez

Atlas entirely dedicated to the most highlighted challenges of bovine reproduction in terms of ultrasound diagnosis. This handbook has been developed with a practical and visual approach, using many resources (images, tables, flow charts, etc.) to help readers better interpret the content. Furthermore, it has been written by a prestigious expert with a wide experience in this topic, who has depicted essential points to be tackled, such as physiology, synchronization protocols and reproductive pathology, including several clinical cases. The atlas format makes the contents understandable and accessible to readers.
